Model XA range (2012-2023):

2015-2021	XA INT
2012-2022	XA PRE
2012-2023	XA POWER

NOTE on US-specific naming (1999-2005):

The so called "2.x" and "3.x" versions had been established by a former US distributor, in order to separate earlier imports from the speakers they imported. Especially the "3.x" versions were only temporarily available versions with Cardas terminals and Cardas internal wires (as an after-market modification by this former distributor).

"x" distinguished "special colored" models (".1" and ".2") from models which were offered as "standard colored" (".0", plain white).

For receiving documentation on discontinued models, such as brochures, fact sheets (as far as available), manuals etc. please send your request, containing the serial number of the product (or a picture thereof, should e.g. hand written numbers be difficult to read) to the following address:
